Who are we?

- BRB Consulting, Inc. delivers specialized/boutique consulting services to organizations providing rehabilitation, behavioral healthcare, employment and/or community services that are interested in improving their business platforms, processes and service programs to optimize and improve their clients and business related outcomes.
- A unique aspect of our consulting services focuses on an end result of successful accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) for organizations offering Medical Rehabilitation, e.g. spinal cord injury/disorders rehabilitation, blind rehabilitation, general acute or sub acute rehabilitation, amputation (limb loss) rehabilitation, cancer rehabilitation; Behavioral Health including substance use disorder services; and/or Employment and Community Services including SSVF or employment services.

Our Services and Approach:

- We develop a collaborative relationship with our clients by first understanding who they are and what they have identified as their goals and needs; and then, developing with them the most comfortable methods to ensure effective and efficient progress.
- We provide individual and group mentorship towards the development of effective and knowledgeable business and program leaders.
- We empower the development of quality business platforms and processes through collaboration on which to build quality program services with high customer satisfaction and robust outcomes.
- We assist with the identification of significant business and service outcomes and application of these outcomes in a meaningful way to assure continuous performance improvement; and to effectively share these outcomes with stakeholders.
- Our approach includes analyses, assessment, and the provision of practical recommendations and mentoring that support business and program success in achieving the goals outlined by each organization.
- Our approach is one in which we aim to facilitate the development of a capable and independent organizational team who are excited about assuring their own quality business platforms and processes and their own quality services while understanding how to become flexible and responsive to changing strategy and goals.

Our Expertise:

- Our cadre of consultants represents over 400 years of combined clinical and administrative practice within a vast range of settings.
- Our company has been providing expert consultation services for 15 years while serving as CARF surveyors both nationally, and internationally.
- Our consultants have a wide variety of experiences including hospital based programs, free-standing programs, for-profit and not-for-profit programs, private sector programs and programs within the Veterans Affairs Healthcare system.
